

STOMOCUR®

Alcohol-free skin protection paste

STOMOCUR®-Skin Protection Paste is applied to sensitive and sore areas surrounding the stoma and ensures increased comfort.

For convenient and comfort treatment of the areas surrounding a stoma

The quality and reliability of FORLIFE products ensure your satisfaction. To fulfil these quality standards, FORLIFE is continually optimising the products in its STOMOCUR® product line. FORLIFE is now expanding its range of accessories by a new alcohol-free paste.

The STOMOCUR® alcohol-free skin protection paste evens out inconsistencies in the skin around the stoma. The skin is protected from secretions by the seal. This product is particularly kind to the skin, unlike skin protection pastes that contain alcohol. No burning sensation on the skin, and irritation is prevented. – Opt for an increase in comfort!

STOMOCUR®-Skin Protection Paste (without alcohol)

No burning, prevents skin irritation and is therefore especially kind to the skin

- ✓ For external use on the skin around the stoma
- ✓ Levels out any unevenness between the stoma and protective skin plate
- ✓ Creates a secure seal
- ✓ Alcohol-free, so no burning sensation on the skin
- ✓ Prevents skin irritation
- ✓ Does not dry out the skin
- ✓ Can be easily applied and removed without a trace
